

# PAYMENT GATEWAY

1. Open **Brupsuite** and go to Proxy tab.

2. Open Browser and go to any payment website (such as: [www.paytm.com](https://www.paytm.com)) and log in.

### 3. Go to RECHARGE option and fill your details and amount for recharge.

The screenshot shows the Paytm website's recharge interface. On the left, the 'Jio Prepaid Mobile Recharge' form is filled out with 'Prepaid' selected, 'Jio' as the operator, and '1000' as the amount. On the right, the 'Browse Plans' section displays a table of Jio recharge plans for Bihar Jharkhand. The table includes columns for Plan type, Data, Validity, Description, and Price. Two plans are visible: 'True 5G Unlimited' for Rs. 39 and 'Jio Special benefits' for Rs. 349. Below the table, there are links to various Jio recharge plans.

Plan type	Data	Validity	Description	Price
Recharge	3 GB/day	3 Days	Special Data Pack (No Voice & No SMS)   Data: 3 GB/day   Voice: NA   SMS: NA   Validity: 3 Days   Get more value than 19 & 29 data addons with this pack   Note - 3 GB High Speed Data thereafter Unlimited at 64Kbps	Rs. 39
Recharge	Unlimited 5G + 2 GB/day	28 Days	Jio Special benefits: True 5G Unlimited Plan + 2% extra on Jio Gold + JioHotstar MobileTV + JioHome 2 month free trial   Data: Unlimited 5G + 2 GB/day   Voice: Unlimited Calls   SMS: 100 SMS/day   Validity	Rs. 349

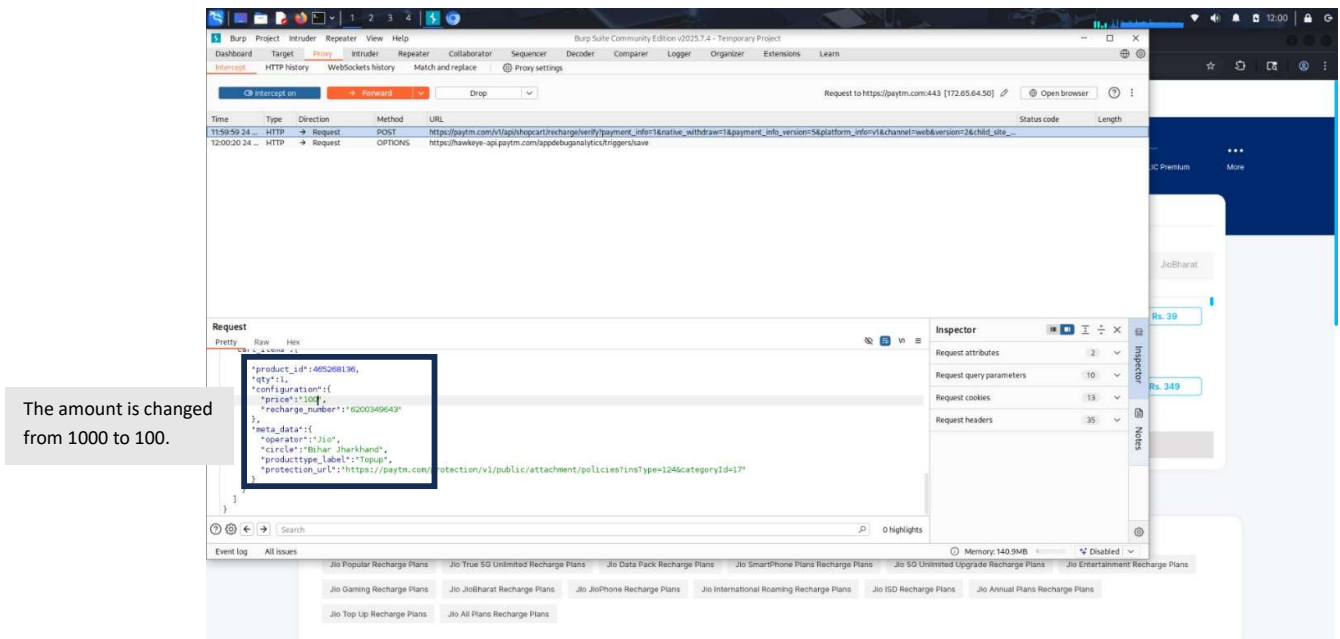

### 4. Intercept it with Burpsuite and start processing and forward until you find the entered amount and user details in REQUEST BOX.

The screenshot shows the Burp Suite interface with an intercepted HTTP request. The request is a POST to [https://paytm.com/v1/api/recharge/verify/payment\\_info](https://paytm.com/v1/api/recharge/verify/payment_info). The request body is highlighted in a blue box and contains the following JSON data:

```
{
  "product_id": "465268136",
  "qty": 1,
  "configuration": {
    "price": "1000",
    "recharge_number": "6200349643"
  },
  "meta_data": {
    "operator": "jio",
    "circle": "Bihar Jharkhand",
    "producttype_label": "Topup",
    "protection_url": "https://paytm.com/protection/public/attachment/policies?insType=124&categoryId=17"
  }
}
```

The right side of the interface shows the 'Inspector' panel with tabs for Request attributes, Request query parameters, Request cookies, and Request headers.

5. Edit it and enter your desired amount and intercept it with response and forward it until you get response.

6. Forward it and edit in RESPONSE BOX (promostatus= "failure" to "success") and forward it . And your amount is updated from 1000 to 100.
